

CHARLES & COLVARD

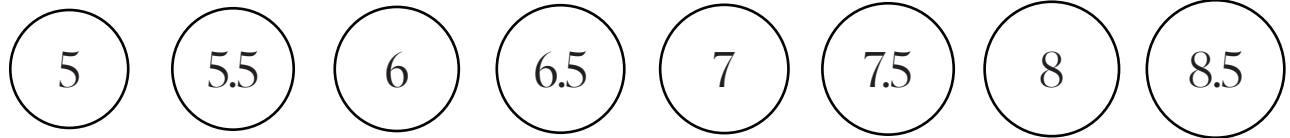

Ring Size Guide

Use the chart below to determine the best ring size for you or your partner! For the most accurate results, we recommend downloading this page and setting your printer to print at 100%.

Once you have printed the guide, place a ring that fits you on top of the circles below. When you find the correct ring size, the ring's interior will line up exactly with the circle's exterior.

If you have questions regarding your ring size or best fit, please email service@charlesandcolvard.com for assistance.
